

# This dude is a failure

No matter the efforts you put to dress, make up, perfume, educate a monkey, it will eventually make a face to you. If the choice of Joseph Kabila is without a doubt a huge slap in their face, we have to keep in mind this casting failure is as high as the disdain, western governments have for Congolese and African people.

**Don't believe the hype. Believe the facts.**

*The President of the  
Democratic Republic  
of the Congo*
