

This little man is a thug

With the millions of deaths and rapes he sponsored in Congo and his dumb but ill-advised support to Dumber Kabila, there's no chances, Sarkozy will ever enter into History (of great minds or presidents). Because behind all this hype about him being a "hyper-president", this little man is only seen for what he truly is: a thief and receiver of DR Congo wealth.

Don't believe the hype. Believe the facts.
